DETAILED ACTION

Allowable Subject Matter

Claims 1 – 19 are allowed.

The following is an examiner's statement of reasons for allowance:

Shumovich shows a well-known stripline coupler comprising short-circuit stubs on a single layer. Hallford shows a similar coupler device as Shumovich with open circuited stubs (46) where the coupler and stub are also located on the same layer. Stover shows a multi-layered transformer comprising dual primary and secondary windings on both layers, further including a short-circuit stub (104) on the second layer but not including an upper cover layer which includes the two coupled lines. In the alternative, the short-circuited stub would not be positioned between at least one coupled line and the first conductive layer (claim 1), nor would it have been obvious to combine the prior art, thus the claims are in condition for allowance.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.

Shumovich – shows a stripline coupler.

Hallford – shows a microwave frequency converter.

Application/Control Number: 10/667,976

Art Unit: 2817

Stover – shows a microwave transformer.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Dean O Takaoka whose telephone number is (571) 272-1772. The examiner can normally be reached on 8:30a - 5:00p Mon - Fri.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Robert Pascal can be reached on (571) 272-1769. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9306.

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see http://pair-direct.uspto.gov. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
